

March 2008

Friends,

We are grateful for you, and pray for you all the time, thanking God for our partnership with you in Milwaukee's inner city. We are gathering support from now until June for our summer camping outings with the kidz from the 'hood.

These are life-changing weekends that take inner city kidz and young people out of the city and into beautiful Wisconsin Dells where friends of ours team up with us for a Spirit-filled weekend.

We do Bible study 3 times a day, praise and worship songs around the campfire, prayer, even baptism! Fishing, swimming, boating through the Dells, island-hopping and tent sleeping (not to mention the great outdoor cooking!) marshmallow fights that Debi always starts, makes for unforgettable weekends for these kidz. It changes us too. There's something about reaching out into the lives of others that changes the ones doing the reaching!

You have been a part of this all along. We can't do it without your help. So many great decisions made during these weekends are to your credit. We invite you once again to support another summer of outreaches through God's Kidz in the 'Hood. Thanks in advance for your support. Our first camping outreach this year is the second weekend in June. We'd like to raise enough support by that time to make it through the summer.

Read on and be blessed by yet another person you have touched through your partnership with us ...

Dear Family,

I can only testify about His Goodness. From year 2000 when I accepted Christ as my Savior while in jail, until the present, the only destruction I was faced with was from me. After numerous failures, I came to the conclusion: *JESUS*. In 2007 I was mauled by a pit bull while homeless because of crack cocaine addiction. I finally came to understand what it is God requires of me: a life of transparency; be open and honest about my life; leaving no tool for the devil to use against me; living a life of humility and obedience. So now everyday I try to live a life that exemplifies God's grace and mercy, leaving the doors of my past closed, giving my circumstances to God, indulging in the support of the Body of Christ at God's Kidz in the 'Hood. That's what makes the difference. I'm keeping the doors of addiction closed. With the help of God I'm making it through the day. With the consistent Bible study, and fellowship, I am staying strong. Thanks for your financial support of this ministry. Because you have given and continue to give, I am saved and I thank God for you.

David J. Parks

We love and appreciate you, and thank God for you!

Jim and Debi Godsey
